INTRODUCTION

The Atherosclerosis Risk in Communities study (ARIC) is described at https://aric.cscc.unc.edu/aric9/.

To protect the confidentiality and privacy of ARIC participants and their families, investigators granted access to Data and Materials must adhere to the requirements of this DMDA. Failure to comply with this DMDA could result in its termination, denial of further access to ARIC or other National Heart, Lung, and Blood Institute (NHLBI) resources, and may leave violators subject to legal action on the part of ARIC participants, their families, or actions brought by the United States of America (U.S. Government).

The undersigned parties entering into this DMDA include: the Recipient (defined in the next section), the NHLBI, and the Coordinating Center for ARIC, on behalf of ARIC and under the direction of the ARIC Steering Committee.

DEFINITIONS

For purposes of this DMDA,

“Data” refers to any and all study information, records, statistics, facts, figures, and numbers, including without limitation to, laboratory, examination, and questionnaire results, and Genetic Analysis Data, images (e.g., without limitation to computed tomography scans, MRI scans), or primary signal data (e.g., ECG, spirometry tracings, polysomnography, accelerometry) and associated records either obtained directly from ARIC participants or obtained from third parties as authorized by the participants pursuant to the contracts with the NHLBI, as well as those provided to ARIC by ancillary studies.

“Genetic Analysis Data” refers to any and all information derived from genetic material and any and all data derived therefrom including statistical analyses linking data from genetic materials with other study data.

“Materials” refers to biological samples including without limitation to: urine, blood (or any part thereof), tissues, or extracted DNA from said biological samples pursuant to the contracts with the NHLBI, as well as biological samples provided to ARIC by ancillary studies.

“Recipient” refers to the institution or other entity receiving access to ARIC Data and/or Materials requested for the Research Project identified in section 3 below as described in the attached research application.

“Recipient’s Principal Investigator (PI)” refers to the Research Project director for the Recipient.

“Research Project” refers to the project described in the attached research application.

“Resultant Data” refers to analyze Data derived in whole or in part by Recipient from Data and/or Materials provided under this DMDA.
