

ARIC MANUSCRIPT PROPOSAL FORM

Manuscript #027

1. Title (length 26):

Factors Associated with Diabetes & High Blood Pressure

2. Writing Group (list individual with lead first):

(lead) Watson

3. Timeline:

4. Rationale:

That co-conditions would be synergistic in causing ultrasound abn & morbidity.

5. Main Hypothesis:

Ho = no synergism

H1 = synergism (high plaques, high lipids, high hosp)

6. Data (variables, time window, source, inclusions/exclusions):

Hx of diabetes, & high blood pressure, prior hospitalizations, & death - Measures of Bl. glucose, BP, EKG, ultrasound, Pulm function, & lipids
